

ReliaG® Pro Series

MODEL 1028

Belt or Chain Drive
Garage Door Opener

ALWAYS AT YOUR COMMAND

Featuring 1/2 HPc* Motor

Highlights

- **Durable Performance** – The DC motor operates most residential sectional and one-piece doors weighing up to 350 lbs. and up to 8' high.
- **Dependability** – The quality built into a Model 1028 is backed by a 5-year Limited Warranty[†] for the motor and integrated gearbox and 15 years for the belt drive rail (5 years for the chain drive rail).
- **GenieSense™ Monitoring** – Automatic force profiling & diagnostic technology improves safety by stopping operation when significant changes occur
- **Smart Illumination Lighting** – The light bulb is positioned toward the inside of the garage instead of on the door for light where you need it most.

THE GENIE STORY: Genie has a rich history in developing garage door openers that feature reliability, strength, safety, security, and convenience. Since 1954, Genie has produced millions of openers that serve millions of satisfied homeowners every day of every year. Shouldn't you have one in your garage? Genie — Always at Your Command!

* Horsepower comparable (HPc) designates this garage door opener meets Genie's lifting force specification for 1/2 horsepower garage door openers.
† Limited non-transferable warranty. See Operation & Maintenance manual for details.

Features & Benefits

POWER & CONTROL

DC Motor Technology – The quiet DC motor with 1/2 HPC* rating offers strength & reliability.

C-Channel Rail – Strong rail design helps promote durability & safety. Also conceals the belt (or chain) for better appearance.

Belt or Chain Drive – Choose the belt drive option for quieter operation or chain drive for economical value.

SAFETY

Safe-T-Beam® Non-Contact Reversing System – When objects pass through the infrared beam, the garage door automatically stops closing & reverses open without having to make physical contact with the door.

SECURITY

Intellicode® Access Security System – Genie's superior encryption technology prevents piracy of the radio signal that operates your door by always selecting a new code from billions of combinations each time the opener is operated.

CONVENIENCE

Smart Illumination – Light is positioned to the inside of the garage instead of the door for light where it's needed most. When the opener is activated, the light will stay on for four minutes, giving you ample time to get to your house or vehicle. The lighting is compatible with incandescent (60 watts maximum) & most CFL and LED light bulbs.

Auto Seek Dual Frequency – The internal system automatically uses either the 315 or 390 MHz frequency produced by the remote control or keypad to help ensure the opener responds regardless of potential nearby frequency interference, such as military base equipment.

Pre-Programmed Remote – Ready to use out-of-the-box with simple steps to change the programming if so desired.

HomeLink® & Car2U® Compatibility – Works with current & ALL previous versions of HomeLink or Car2U.

Convenience Features

Put more magic in your Genie opener with these great accessories!

Wireless Keypad

Mounts outside your door to give you keypad code access to your garage, which is great when you are outside without the remote control. Back-lit keypad lets you easily see the numbers & allows you to control up to three openers.

Choose a color for the flip-up cover that best complements your home.

3-Button Remote

This remote allows you to operate up to 3 openers. It comes with a visor clip & can be used with a key ring.

Multi-Function Wall Console

Featuring large push buttons for easy operation, this wall console also has Sure-Lock™ button to disable the remotes and keypad for extra security at night or while away from home.

GenieMaster® Remote

This versatile remote control works with all Genie gated community receivers as well as most Genie openers ever made, including Genie 390 MHz remotes on 9-switch, 12-switch, and 9-switch trinary formats. It also is compatible with those models that have Auto Seek Dual Frequency.

6' Power Cord (1028H)

Genie openers come with a standard 4' power cord. However, if you need a couple extra feet for harder to reach outlets, then you want our 6' power cord Model 1028H..
