for any climate.

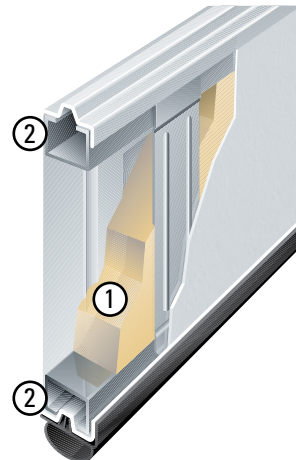

Colonial Panel, Glacier White finish, Ruston windows

door construction

The model 8700 vinyl garage door is engineered to be low maintenance and provide an elegant look that will last for many years. It won't rust, crack, or dent and is the ultimate door for easy-care living.

- The model 8700 comes in two panel designs that offer the timeless design of freshly painted hardwood.
- This door has full PVC color construction. This means scratches are less visible because the color goes all the way through the material.
- The UV-Resin used in the door's construction contains special polymers that protect the door sections from the sun's harmful ultraviolet rays.
- Tamper-resistant safety bottom brackets help avoid possible injury by preventing inadvertent loosening while the counterbalance cables are still under tension.
- The Wayne Dalton TorqueMaster® Plus is the first counterbalance system to seal springs safely within a steel tube. It contains an anti-drop feature that eliminates the risk of door free fall.
- Recommended for coastal regions for its resistance to salt air and sand.

- ① R-11.75* polyurethane insulation is permanently bonded to the vinyl skin for thermal efficiency, durability and added rigidity.
- ② Twin 20-gauge steel C-channels run full length of each panel and are anchored to interior steel stiles for strength.

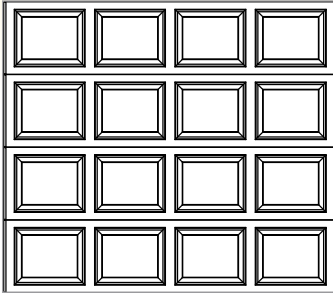

Warranty

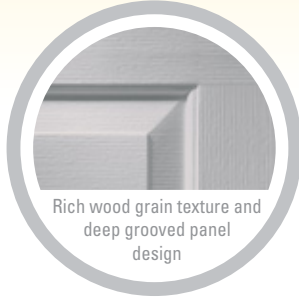

Wayne Dalton warrants this door for 15 years against peeling flaking, chipping or cracking of the vinyl skin and 5 years against excessive color fading of the vinyl skin. See the warranty certificate for more details.

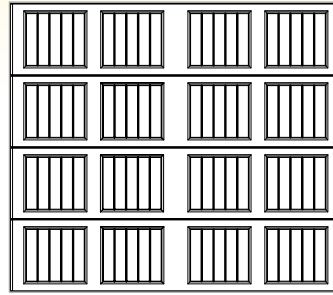

1 choose your style:

Colonial

Rich wood grain texture and deep grooved panel design

Sonoma

Rich wood grain texture and deep grooved panel design
